

# PATIENT CARE

The **USC Division of Biokinesiology and Physical Therapy** has a comprehensive clinical practice component that provides high-quality physical therapy services to the surrounding community and serves as a hub for clinical education of students and clinical research by the division's faculty.

## USC Physical Therapy

Outpatient faculty practices on the USC University Park Campus (Engemann Health Center, 1031 W. 34th St., Suite 450, Los Angeles, CA 90089-3261) and the USC Health Sciences Campus (Health Research Association Building, 1640 Marengo St., Suite 102, Los Angeles, CA 90033)

- Patient care services are provided by faculty members with expertise in orthopedics, neurology, oncology, lymphedema management, sports, vestibular physical therapy, pelvic floor dysfunction, pain and wellness
- Demonstrates that high-quality, evidence-based care can be provided in today's reimbursement climate
- Serves as an incubator for the development of new models of practice at the doctoral level
- Academic and clinical faculty develop and test new clinical approaches here and bring the results back into the curriculum
- Serves as a site for conducting applied research
- Houses the division's clinical residency programs

## Keck Hospital of USC

- Tertiary facility staffed by USC faculty through contractual agreement
- Specialty areas of practice in orthopedics, neurology, oncology, cardiopulmonary, organ transplantation, wound management and bariatric medicine
- Outpatient focus on cardiopulmonary and wound care
