USC/CHLA PEDIATRIC PHYSICAL THERAPY RESIDENCY OUTCOMES

GRADUATE OUTCOMES

- The USC/CHLA Pediatric Physical Therapy Residency started in 2012 and has accepted 1-2 residents a year for a total of 16 residents: 14 residency graduates and 2 current residents.
- 100% of residents accepted into the program completed the USC/CHLA residency.

CLINICAL PRACTICE OUTCOMES

- 100% of USC/CHLA residency graduates are Board-Certified Clinical Specialists in Pediatric Physical Therapy, except the two 2021 residency graduates who plan to take the test in 2022.
- 100% of USC/CHLA residency graduates secured an advanced care clinical position in pediatrics upon graduation from the residency. Our residents are currently employed at: Children’s Hospital Los Angeles, Dell Children’s Medical Center of Central Texas, Eugene Child Development and Rehabilitation Center, Lurie Children’s Hospital of Chicago, NYU Langone Orthopedic Hospital, Phoenix Children’s Hospital, and St. Louis Children’s Hospital.

TEACHING OUTCOMES

- 43% of our residency graduates secured a teaching position in a Doctor of Physical Therapy or a Leadership Education in Neurodevelopmental and Related Disabilities (LEND) program.

SERVICE OUTCOMES

- 67% of our residency graduates demonstrate significant service and/or leadership for the American Physical Therapy Association (APTA) or their community.

RESEARCH OUTCOMES

- 100% of our residency graduates contributed to evidence-based practice through publications or conference presentations at the APTA Combined Sections Meeting or the APTA Pediatrics Annual Conference.
- Our residency graduates authored the following publications (names in blue), and 4 additional graduates have a manuscript in review.
