CLINICAL EXPERIENCE

Keck Hospital of USC | Los Angeles, CA
Instructor of Clinical Physical Therapy - Inpatient Acute Setting

September 2022 - Current

Huntington Health - A Cedars Sinai Affiliate | Pasadena, CA
Student Physical Therapist - Outpatient Orthopedic Clinic (16 weeks)

January 2022 - April 2022

- Evaluated, determined differential diagnoses, established plan of care and developed proper prognosis for middle age and older adults with general orthopedic diagnoses
- Managed post-operative patients in various stages of recovery post total knee arthroplasty, rotator cuff and biceps long head tendon repair, proximal humerus fracture, lumbar wedge compression fracture and cervical decompression
- Delivered an in-service presentation on exercise prescription for patients with neck pathology, specifically regarding postural re-education, deep neck muscle motor control and conditioning and sensorimotor function

Keck Hospital of USC | Los Angeles, CA
Student Physical Therapist - Inpatient Acute Mixed Setting (16 weeks)

August - December 2021

- Evaluated, treated, created/continued plan of care and participated in multidisciplinary discharge planning for young, middle age and older adult patients on the general medical surgical floors and abdominal organ transplant ICU
- Treated patients with liver and kidney failure pre- and post-transplant while on continuous renal replacement therapy and/or mechanical ventilation, in addition to patients status post colorectal/urology procedures
- Developed an in-service presentation on the use of a functional outcome measure (ie: Liver Frailty Index) for patients with chronic liver disease and/or cirrhosis

BASE Training and Physical Therapy | Encino, CA
Student Physical Therapist - Outpatient Orthopedic Clinic (8 weeks)

May - June 2021

- Evaluated, treated and continued plan of care for patients across the lifespan with a wide range of operative and non-operative conditions, including ACL reconstruction, meniscal repair, total hip and knee replacement and rotator cuff/labrum repair
- Utilized skills learned from neurologic focused classes to provide individualized treatment for patients with balance deficits, Parkinson's Disease and Progressive Supranuclear Palsy
- Developed an in-service presentation on evidence-based interventions for patients with Parkinson's Disease

Elite Performance and Rehabilitation Center | Santa Barbara, CA
Student Physical Therapist - Outpatient Orthopedic Clinic (2 weeks + 6 weeks)

March 2020 & July - August 2020

- Evaluated, treated and continued plan of care for individuals with general orthopedic conditions and post various orthopedic surgeries
- Developed an in-service presentation on evidence-based treatment approaches for total shoulder arthroplasty and reverse total shoulder arthroplasty
